TECHNICAL PROJECTS

Job Manager
- Developed a system that store   July 18, 2024

Top Companies Web Scraper
- Developed a web scraping tool using Beautiful Soup, to extract a data table on Wikipedia. Utilizing the power of Pandas and NumPy, I processed this data, transforming it into a structured CSV file. Then leveraged Matplotlib, visualized this data by generating informative graphs and charts.   February 10, 2024

Grading System
- A Java grading application where users input homework and exam grades, and the program calculates their weighted average. It then determines if the user passed the class based on the final grade.   January 18, 2024
